Sadbhavana

The Essence of Global Harmony

The Background

The humanity that India represents today is the product of a civilization which is over 12,000 years old or more. The spirit of tolerance and goodwill are the hallmarks of this civilization. The need for communal harmony and social integration has never been more as it is today.

The most important piece of the human experience, the spirit of Sadbhavana across regional and global communities can only come through recognition of the oneness of humanity, a realization that differences which divide us along ethnic lines have no

foundation. Sadbhavana, in its own way, has the fundamental ability to foster solidarity, collective participation, and peace amongst all. It makes us realize that each one of us has something to contribute to the society at large. It is inherent in, and taught in all scriptures across the world.

Harboring and extending Sadbhavana towards one and all is the essence of the coexistence of humankind, and it has never been better represented than by our Hon'ble Prime Minister Shri. Narendra Modi Ji in India, and around the world.

Don't fall into trap of foreign powers, remember why this martial community was created by Guru Nanak ji. Remember our Guru's sacrifice. Please be united.

PM Modi ji's decision of slashing the blacklist or the Central Adverse List which included Sikhs residing in the USA, UK, Canada and other countries came as a major relief for many individuals living abroad for decades. We are short of words in praise of Mr. Satnam Singh Sandhu, without whom we would not have got this amazing opportunity to meet PM Modi. We must appreciate Prime Minister Narendra Modi for highlighting the contribution of Sikhs in the economy of the nation as well as the global arena. Several initiatives of PM Modi ji to resolve issues of NRIs are a clear indication of his great concern for our Sikh Community.
